Adult Preventive Care Plans

Below you will find the different Preventive Care Plan options we have available for adult patients (under 8 years old), along with the included services. If you are interested in getting more information on the plans, ask one of our team members. You may purchase a plan within 24 hours of your visit, and have the visit's costs applied toward your plan. If the costs exceed the total for the one-time membership fee and first monthly payment, we will apply a credit to your account for future use.
